

Fabulous earrings you can make yourself! Follow the instructions below!

You will find all the supplies you will need at McBead Creations:
4 tube beads, 4 flower spacers, 2 large glass beads, 2 pieces of wire, 2 bead tips, 2 crimp bead and 2 earring posts
You will require chain-nosed pliers, round-nosed pliers, and wire cutters.

If you have any questions, please phone us at (613)224-2143.

Enjoy!

Step 1:
Feed your beads onto the wire in the order shown. Centre the beads on your wire.

Step 2:
Bring the two ends of the wire together, evenly.

Slide the two wires through tip from behind, and point the "mouth".

Slide a crimp bead onto both wires, towards the bead tip.

Using chain-nosed pliers, slide the crimp bead down into the bead tip so that there are no spaces between the beads and the bead tip, and between the bead tip and the crimp bead.

Using chain-nosed pliers, flatten) the crimp bead as you can, and as snug as you into the bead tip.

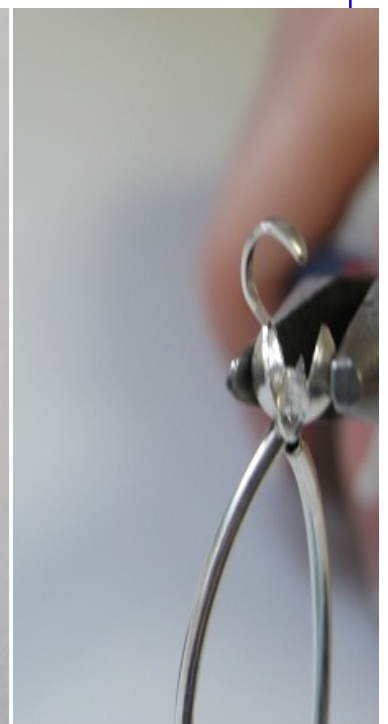

Now you have a flattened crimp bead.

You can leave it flattened, or you can use your chain-nosed plies to fold in in half to "crimp" the crimp bead.

Using wire cutters, cut off the extra wire after the crimp bead.

**Using chain-nosed pliers, c
bead tip.**

Using round-nosed pliers, turn the hook on the bead tip so that it makes one and a quarter turns, slightly overlapping.

Using chain-nosed pliers, gently open the loop sideways like a swinging door.

Slide the loop of the be into the open loop of th hook. Close the loop.

Repeat the steps above to make a second earring for a complete pair!
